

MDM17 Complications of Diabetes

Overview

This intensive module, which runs over one week, aims to critically evaluate evolving practice in the scope, pathogenesis and epidemiology of diabetic complications and to integrate knowledge of pathophysiology with management. This module can contribute towards Continuing Professional Development (CPD) and also a 20 Masters' level credit as part of a Postgraduate Certificate, Postgraduate Diploma or Masters award.

Module Leader:

Dr John Quin
Consultant Diabetologist, BSUH

Time and Place

17-21 May 2010
University of Brighton's Falmer Campus

Topics

- Overview of complications
