1. Introduction

Brighton and Sussex Medical School (BSMS) is committed to providing a safe and secure environment for children and young persons and also adults in a vulnerable situation.
BSMS runs an established longitudinal widening participation programme for students in year 9 – 13. As well as a range of other activities where under 18’s will be attending/participating, this includes but is not limited to:

- BrightMed
- BrightIdeas
- Outreach school activities
- Work experience
- Open days
- Open lectures
- Interview days

This policy details the procedures that need to be followed when there is concern about the welfare of a child, a disclosure of abuse has been made, or if an allegation is made to or against a university member.

2. Definitions

Child - The law defines a child as being any person under the age of 18.

For the purpose of this policy and procedures ‘young people’ includes children and those aged 18 up to their 19th birthday who are still in full-time education at school or Sixth Form College (but not those at University).

Vulnerable adult - A vulnerable adult is someone who is aged 18 or over who has either a dependency upon others in the performance of, or a requirement for assistance in the performance of basic functions; a severe impairment in the ability to communicate with others; or has a reduced ability to protect themselves from assault, abuse or neglect.

Safeguarding - Defined by the Government’s [Working Together to Safeguard Children policy](#) July 2018 as:

- Protecting children from maltreatment
- Preventing impairment of children’s health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care

June 2020
• Taking action to enable all children to have the best outcomes

**University members** – Includes all staff and students at BSMS and occasional external speakers where appropriate to the needs of BSMS.

**Abuse** – A person may abuse a child or an adult at risk by inflicting harm, or by failing to act to prevent harm.

**Types of Abuse** - See Appendix 1 for definitions of physical, emotional and sexual abuse, neglect, bullying, female genital mutilation and radicalisation.

### 3. Principles of the Policy

3.1 BSMS believes that every child has the right to be in a safe and caring environment and to feel protected from harm and abuse. They have the right to expect people in a position of responsibility/trust to do everything possible to uphold these rights.

3. BSMS has a legal responsibility to safeguard the welfare of children who are on our premises, or who come into contact with our university members, in accordance with the Children Acts ([1989](#) and [2004](#)).

3.2 A university member will have been recruited using the policy in place or their employer, or admissions policy in the case of BSMS students.

3.3 Appropriate Disclosure and Barring Service (DBS) checks will be conducted as necessary on university members. Undergraduate medical students complete a DBS check as part of their application to the course. Students on Tier 4 visas will have completed appropriate police checks. WP & Outreach Team members will renew their DBS check every 3 years. If a guest speaker does not have a DBS a teaching mentor or a member of the WP & Outreach Team will accompany them during their session.

3.4 University members are aware of BSMS Safeguarding and Child Protection Policy and procedures. Relevant university members are trained and updated of changes to the policy.

3.5 BSMS will work closely with other organisations to safeguard children.

June 2020
3.6 BSMS will have clear procedures for dealing with allegations of abuse against university members and current students.

4. Recognition of Abuse

4.1 BSMS accepts the view outlined in *Keeping children safe in Education* (September 2019) that there are four main categories of child abuse. These are:

- Physical
- Emotional
- Sexual
- Neglect

Definitions can be found in Appendix 1

4.2 BSMS also recognises the National Society for the Prevention of Cruelty to Children (NSPCC) additional five categories of child abuse. These being:

- Bullying
- Online abuse
- Female Genital Mutilation (FGM)
- Child trafficking
- Radicalisation

Definitions can be found in Appendix 1

5. Concerns of Abuse, Bullying or Radicalisation

5.1 Any concerns that a university member has that a child is being harmed or is at risk of being harmed should be raised IMMEDIATELY with the Designated Safeguarding Officers (DSO).

They are currently:

- Darren Beaney - Head of Admissions
- Claire Johnson - Widening Participation & Outreach Manager

See Appendix 4 for contact details
5.2 Do not talk about your concerns with anyone else.

5.3 The DSO will collect all details of the suspicion and will immediately refer the matter to the appropriate statutory authorities. The statutory authority will assume the task of investigating the matter. University members should not attempt to conduct their own investigation. University members should not do anything that may prejudice any investigations carried out by either Social Services or the Police.

5.4 If an incident occurs outside of regular working hours (weekdays 9am – 4pm) then concerns should be raised with:

- NSPCC 24hr helpline – **0800 800500** (NSPCC have legal powers to place a child into protective care)

- Sussex Police - **0845 6070999** or **999** – **If a crime has been committed and/or the child or vulnerable adult is at immediate harm the Police should be contacted immediately. This includes disclosures around Female Genital Mutilation (FGM) which is a criminal offence.** Social Services Duty and Assessment Team - **01273 296000**

- **Child Exploitation and Online Protection (CEOP) -**
  - [https://www.ceop.police.uk/Safety-Centre/](https://www.ceop.police.uk/Safety-Centre/) (for concerns regarding online abuse)

The DSO needs to be informed at the earliest available opportunity the next working day and the relevant documentation completed.

6. Disclosure of Abuse

6.1 If a child or vulnerable adult discloses an incident of abuse, or makes an allegation, the person who receives the information should do the following:

- Stay calm and listen carefully to what the child is saying.
- Take the child seriously and do not interrupt them.
- Allow the child to tell the story in their own way and at their own pace.
- Find an appropriate, early opportunity to explain that it is likely that the information will need to be shared with others – do not promise to keep secrets.
• Reassure the child that they have done the right thing in telling you and that they are not to blame for what has happened.

• Tell the child that the allegation will be taken seriously

• Use positive prompts. Ask questions for clarification only, and at all times avoid asking questions that suggest a particular answer.

• Explain to the child what you will do next. (See Appendix 3)

• NEVER remove or let the child remove any clothing in order to see injuries.

• Record in writing what was said using the child’s own words as soon as possible using the Reporting Safeguarding Concerns form (Appendix 2) – note date, time, any names mentioned, to whom the information was given and ensure that the record is signed and dated. Where possible please use a pen and avoid crossing out information.

• Contact the DSO (detailed in Appendix 4) as soon as possible for further advice and for onwards referral, as necessary.

• DO NOT talk to other people about the allegations. Others should only be made aware of this on a ‘need to know’ basis.

• Never use electronic devices to record the conversation.

• Paperwork needs to be brought to the Admissions & Outreach Office (Watson Building, Room 333) as soon as possible in person. Do not put in the internal post system.

6.2 If a disclosure is made to you, you may be asked to give evidence at any subsequent investigation or hearing.

6.3 The report needs to be completed and given to the DSO within at the earliest available opportunity the next working day or as soon as possible after the allegation has been made. The DSO will then follow up on the allegations and store the report securely.

7. Concerns and Allegations Concerning a University Members

7.1 If allegations, disclosures or concerns involve one or more of the DSOs then the above procedures should be adhered to. However, the concerns should be reported directly to Peter Dennis, Medical School Secretary and not to the DSOs. See Appendix 4 for contact details.
If an incident occurs outside of regular working hours (weekdays 9am – 4pm) then concerns can be raised with:

Sussex Police - 0845 6070999 or 999
NSPCC 24hr helpline – 0800 8005000 (NSPCC have legal powers to place a child into protective care)

Social Services Duty and Assessment Team - 01273 296000

7.2 Whilst an investigation is taking place, it will be at the discretion of the relevant Human Resources department to decide the appropriate action. This may include restricted work duties and/or suspension.

8. Concerns and Allegations Concerning an Undergraduate Medical Student

8.1 Any allegations made against a current undergraduate medical student will be processed in the same way as stated in section 6.

8.2 The allegation will also be reported to the Medical School Secretary (Peter Dennis) as BSMS will need to decide if the situation needs to be taken to the Fitness to Practice Board.

9. Undergraduate students under the age of 18 when commencing the course.

9.1 All undergraduate students must turn 18 in their first year of study. The BSMS Phase One School Office and BSMS Student Support will be made aware of any students that start the BM BS degree at the age of 17.

10. Training
10.1 Full-time employed members of the Widening Participation and Outreach team will undergo online Child Protection Awareness Training, provided by the NSPCC. The Designated Safeguarding Officers should undergo additional Designated Safeguarding Lead training.

10.2 Full-time employed members of the Widening Participation and Outreach team will undergo online Prevent Training, provided by the University of Sussex.

10.3 All current medical students as part of their first year receive comprehensive e-Learning for Healthcare Child Protection Awareness training as a course requirement.

10.4 Students recruited to work on widening participation and outreach events will, as part of their training, attend a session covering BSMS Safeguarding Policy and Procedures.

11. Risk Assessments

11.1 Risk assessments should be carried out for ALL BSMS –lead activities that involve children or vulnerable adults.

11.2 Risk assessments must be kept up to date and be reviewed each year. They must be kept on file and be easily accessible.

11.3 When the BSMS is running activities on behalf of partner organisations, a risk assessment must be requested from the partner and an electronic copy kept on file.

11.4 All BSMS university members must be made aware of all risks that are involved with any activities that are being run. Risk assessments will be sent out to university members working the event so they can read it in advance.

11.5 If an activity is deemed as too hazardous then it will not be undertaken.

12. Accidents and Near Misses

12.1 Accidents or Near Misses that occur on the University of Sussex campus must be reported to the Health and Safety department healthsafety@sussex.ac.uk or 01273 877116. University members that have access to Sussex Direct, can submit an online accident report form.
12.2 Accidents or Near Misses that occur on the University of Brighton campus must be reported through an online form here: https://staff.brighton.ac.uk/safety/Pages/Health-and-safety.aspx

13. Data Protection

13.1 All data concerning children should be kept securely and only be accessible to authorised university members.

13.2 Working together to safeguard children (July 2018) states:

_The Data Protection Act 2018 and GDPR do not prohibit the collection and sharing of personal information, but rather provide a framework to ensure that personal information is shared appropriately. In particular, the Data Protection Act 2018 balances the rights of the information subject (the individual whom the information is about) and the possible need to share information about them._

As such, if there are legitimate safeguarding concerns, a child’s data can be shared with the Child Social Care office, NSPCC or the Police.

13.3 BSMS Data Protection Policy can be found here.

14. Online Activities

14.1 For activities conducted online, a dedicated Risk Assessment has been created that highlights the procedures and settings required to minimise potential risk to the participants.

14.2 Online activity will be conducted using University and not personal accounts. Online platforms that may be used include; Microsoft Teams, Zoom and Brightside.

14.3 Participants will be sent an online Code of Conduct before the sessions. By attending the session, they are agreeing to the Code of Conduct.
14.4 All activity, where possible, will be recorded and stored on the University Zoom account and Panopto. This may be used as evidence should any safeguarding concerns be reported.

14.5 Parental consent will be gained for participants, under 16, enrolled on a BSMS Widening Participation programme.

14.6 The procedure for dealing with a safeguarding concern, that arises during online activity, is the same as that outlined in section 6.
Appendix 1: Signs and Indicators of Abuse

<table>
<thead>

<tr>
<td></td>
<td>- Persistent sore throats</td>
</tr>
<tr>
<td></td>
<td>- Eating disorders</td>
</tr>
<tr>
<td></td>
<td>- Self-mutilation</td>
</tr>
</tbody>
</table>
**Type of abuse**

| Sexual abuse can involve contact abuse and/or non-contact abuse. Contact abuse happens when the abuser makes physical contact with the young person. Non-contact abuse involves non-touching activities. It can happen online or in person. | • Refuses to change for gym or participate in physical activities  
• Exhibits an inappropriate sexual knowledge for their age  
• Exhibits sexualised behaviour in their play or with other children  
• Lack of peer relationships, sleep disturbances, acute anxiety/fear  
• School refusal, running away from home. |
|---|---|

**Child sexual exploitation** is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology.

| • Going missing for periods of time or regularly returning home late  
• Frequently staying out late or overnight with no explanation as to where they have been.  
• Going places that you know they cannot afford.  
• Skipping school or being disruptive in class  
• Suddenly acquiring expensive gifts such as mobile phones, jewellery – even drugs – and not being able to explain how they came by them.  
• Having mood swings and changes in temperament  
• Noticeable changes in behaviour – becoming secretive, defensive or aggressive when asked about their personal life.  
• Wearing inappropriate clothing that is too adult or revealing for their age.  
• Displaying inappropriate sexualised behaviours, such as over familiarity with strangers, dressing in a sexualised manner or |
<table>
<thead>
<tr>
<th><strong>Type of abuse</strong></th>
<th><strong>Signs/indicators</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>sending sexualised images by mobile phone (‘sexting’)</td>
<td><strong>Bullying:</strong> defined as deliberately hurtful behaviour, usually repeated over a period of time, where it is difficult for those bullied to defend themselves. It can take many forms, but the three main types are physical (e.g. hitting, kicking, theft), verbal (e.g. racist or homophobic remarks, threats, name calling) and emotional (e.g. isolating an individual from the activities and social acceptance of their peer group).</td>
</tr>
<tr>
<td>- Getting into trouble with the police.</td>
<td>- Coming home with cuts and bruises</td>
</tr>
<tr>
<td>- Bruises, marks on the body, sexually-transmitted diseases, pregnancy, drug and alcohol abuse or self-harm.</td>
<td>- Torn clothes</td>
</tr>
<tr>
<td>- Repeated phone calls, letters, emails from adults outside family social circle.</td>
<td>- Asking for stolen possessions to be replaced</td>
</tr>
</tbody>
</table>

**Female Genital Mutilation (FGM):**
Female genital mutilation (FGM) is the partial or total removal of external female genitalia for non-medical reasons. It's also known as female circumcision or cutting. Religious, social or cultural reasons are sometimes given for FGM. However, FGM is child abuse. It’s dangerous and a criminal offence.

**Indicators a girl may be at immediate risk of FGM:**
A girl at immediate risk of FGM may not know what's going to happen. But she might talk about or you may become aware of:

- a long holiday abroad or going ‘home’ to visit family
- relative or cutter visiting from abroad
- a special occasion or ceremony to 'become a woman' or get ready for marriage
<table>
<thead>
<tr>
<th>Type of abuse</th>
<th>Signs/indicators</th>
</tr>
</thead>
<tbody>
<tr>
<td>There are no medical reasons to</td>
<td>• a female relative being cut – a sister, cousin, or an older female relative</td>
</tr>
<tr>
<td>carry out FGM. It doesn’t enhance</td>
<td>such as a mother or aunt.</td>
</tr>
<tr>
<td>fertility and it doesn’t make</td>
<td></td>
</tr>
<tr>
<td>childbirth safer. It is used to</td>
<td><strong>Indicators FGM may have taken place:</strong></td>
</tr>
<tr>
<td>control female sexuality and can</td>
<td>A girl or woman who’s had female genital mutilation (FGM) may:</td>
</tr>
<tr>
<td>cause severe and long-lasting</td>
<td>• have difficulty walking, standing or sitting</td>
</tr>
<tr>
<td>damage to physical and emotional</td>
<td>• spend longer in the bathroom or toilet</td>
</tr>
<tr>
<td>health.</td>
<td>• appear withdrawn, anxious or depressed</td>
</tr>
<tr>
<td></td>
<td>• have unusual behaviour after an absence from school or college</td>
</tr>
<tr>
<td></td>
<td>• be particularly reluctant to undergo normal medical examinations</td>
</tr>
<tr>
<td></td>
<td>• ask for help, but may not be explicit about the problem due to embarrassment</td>
</tr>
<tr>
<td></td>
<td>or fear.</td>
</tr>
</tbody>
</table>

**Child trafficking:** involves children being recruited, moved or transported and then exploited, forced to work or sold. Children are trafficked for: child sexual exploitation; benefit fraud; forced marriage; domestic servitude such as cleaning, childcare, cooking; forced labour in factories or agriculture; criminal activity such as pickpocketing, transporting drugs, working on cannabis farms, selling pirated DVDS, and bag theft. Many children are trafficked into the UK.

**Signs that a child has been trafficked:**

- spends a lot of time doing household chores
- rarely leaves their house, has no freedom of movement and no time for playing
- is orphaned or living apart from their family, often in unregulated private foster care
- lives in substandard accommodation
- isn't sure which country, city or town they're in
- is unable or reluctant to give details of accommodation or personal details
- might not be registered with a school or a GP practice
<table>
<thead>
<tr>
<th>Type of abuse</th>
<th>Signs/indicators</th>
</tr>
</thead>
</table>
| from abroad, but children can also be trafficked from one part of the UK to another. | • has no documents or has falsified documents  
• has no access to their parents or guardians  
• is seen in inappropriate places such as brothels or factories  
• possesses unaccounted for money or goods  
• is permanently deprived of a large part of their earnings, required to earn a minimum amount of money every day or pay off an exorbitant debt  
• has injuries from workplace accidents  
• gives a prepared story which is very similar to stories given by other children. |
| **Signs that an adult is involved in child trafficking:** | • making multiple visa applications for different children  
• acting as a guarantor for multiple visa applications for children  
• travelling with different children who they are not related to or responsible for  
• insisting on remaining with and speaking for the child  
• living with unrelated or newly arrived children  
• abandoning a child or claiming not to know a child they were previously with. |

**Radicalisation**: involves children or young people being specifically targeted, groomed or radicalised to take part in, assist with or promote

Radicalisation can be really difficult to spot. Signs that may indicate a child is being radicalised include:

• isolating themselves from family and friends  
• talking as if from a scripted speech  
• unwillingness or inability to discuss their
<table>
<thead>
<tr>
<th>Type of abuse</th>
<th>Signs/indicators</th>
</tr>
</thead>
<tbody>
<tr>
<td>potential terrorist or extremist activities.</td>
<td>views</td>
</tr>
<tr>
<td></td>
<td>• a sudden disrespectful attitude towards others</td>
</tr>
<tr>
<td></td>
<td>• increased levels of anger</td>
</tr>
<tr>
<td></td>
<td>• increased secretiveness, especially around internet use.</td>
</tr>
</tbody>
</table>

Children who are at risk of radicalisation may have low self-esteem, or be victims of bullying or discrimination. Extremists might target them and tell them they can be part of something special, later brainwashing them into cutting themselves off from their friends and family.

However, these signs do not necessarily mean a child is being radicalised – it may be normal teenage behaviour or a sign that something else is wrong.
Appendix 2. Safeguarding Concerns Form

Safeguarding Concerns Form

The university member who raised the initial safeguarding concern should complete this form within 24 hours. The DSO may also need to update the form with any actions and/or outcomes. Please note that the university member raising the initial safeguarding concern should always contact the DSO and complete this form.

Date:

Details of child/adult who may be at risk, and parents/carers or advocate (in cases of adults who may be at risk)

Name of child/young person who may be at risk:

Reason for reporting a concern (delete as appropriate):
1. This person is a child/young person who may be at risk
2. This person is at risk of harm/at risk of harming others
3. This person is at risk of involvement in extremist activity

Gender: Age: Date of birth:

Ethnicity (if known): Language: Additional needs:

Activity individual was involved in when allegation occurred:

Name(s) of parent(s)/carer(s):
| Address and telephone number/email address of child/young person who may be at risk (if known): |

This completed record need to be brought to a Designated Safeguarding Officer at the earliest available opportunity the next working day. See Appendix 4 in the BSMS Safeguarding and Child Protection Policy.
Appendix 3. Procedure for reporting Safeguarding concerns

BSMS university member receives information which suggests a child is being harmed/abused/neglected, or at risk of harm/abuse/neglect.

- **Yes**: Is the child at immediate risk of harm?
  - **Yes**: BSMS university member to take any urgent action needed to keep the child/adult safe e.g. calling the police if medical treatment is required, call an ambulance.
  - **No**: BSMS university member to contact the Designated Safeguarding Officer (DSO), and discuss the concern with them. The matter should be reported without delay. If the child/adult has made a direct disclosure, the university member should follow the guidelines in section 5. The university member who receives the disclosure will be responsible for ensuring the child/adult is in a safe environment until the DSO and/or the appropriate local agencies have become involved.

University member who raised safeguarding concern to complete Safeguarding Concern Report Form. The DSO can assist university members in the completion of this form.

- **For the DSO to consider**: Does concern constitute a safeguarding concern as defined in the Safeguarding policy Appendix 1?
  - **Yes**: Does the concern involve an allegation against a university member (including supply/agency workers and volunteers)?
    - **Yes**: Contact the appropriate LADO. Before sharing information about a child or vulnerable adult with the local social care office, follow guidance on consent and confidentiality.
    - **No**: Contact the Medical School Secretary. They will decide as to whether matters should be dealt in accordance with Student Disciplinary Procedure and/or Fitness to Practice Procedure.
  - **No**: Record decision that raised concern does not constitute a safeguarding concern on the Report Form. Consider other appropriate action if the child/adult is a participant in university activities, consider local support agencies. File copy of Report Form securely

- **Does the concern involve an allegation against a BSMS student?**
  - **Yes**: Record action taken on Report Form. Consider other appropriate support e.g. if disclosure is made to a student, consider referral to Student Services. File copy of Report Form securely.
Appendix 4. Safeguarding Children and Young People Contacts
