Introduction

The vision for this course is to offer an innovative blend of leadership theory, contemporary healthcare policy, and active application to practice, which will equip clinicians, leaders, commissioners and managers to develop deep knowledge and understanding of healthcare leadership. Students will address complex situations in the organisation and leadership of healthcare within both the wider public service context, and the local context in which they operate.

We have been offering in-depth academic study of Healthcare Leadership and Commissioning at the Brighton and Sussex Medical School over the past 12 years. This course is academically rigorous and multidisciplinary, based in research on healthcare and service improvement; modules are highly evaluated. The course team comprises respected and credible healthcare leaders, with a portfolio of roles in national and local leadership.

Students graduating from the course will be clinical and managerial specialists: they will apply their range of specialist skills to the healthcare challenges facing their services and organisations. They will conduct research and enquiry into challenges to the dominant 20th century models of healthcare, and be able to apply a range of specialist knowledge and skills to respond to and shape the changing healthcare environment of the 21st century.

The course modules focus on theory, policy and practice: they combine academic and research evidence with an up-to-the-minute take on current policy, using structured practical projects and work-orientated investigations. Our multi-disciplinary approach brings clinicians, leaders and managers together from all parts of the health and care system, offering a rich learning environment to build links with colleagues from other professions and services. Course students will review practical instances of leadership in healthcare in the real world, carry out investigative work on leadership and management with colleagues and staff in healthcare workplaces, and review how national strategy & policy applies to local practice.

The MSc Healthcare Leadership and Commissioning uses collaborative learning, problem-solving, simulation, and student-led/Faculty-led small group seminar work. Social media tools (Twitter/LinkedIn) are used to connect Course team and students. This Course is particularly focused on making a topical policy offer to its students, so new publications and policy updates are regularly posted via social media.
COVID-19

Please check the University of Brighton website’s COVID-19 section (here) and the school website (here) for up to date COVID-19 guidance and its implications on your course.
## Aims and Objectives

This Course aims to provide advanced expert education for clinical and managerial professionals interested in developing a systematic and critical understanding of healthcare leadership and commissioning. The goal is to develop students to become the high achieving clinical and service leaders of the future.

A unique feature of this course is its emphasis not only on the organisation and leadership of healthcare but also the opportunity to focus on clinical expertise and clinical contexts in some depth, alongside learning in research and the development of academic writing skill. A key aspect of the Course is intended to be its multi-professional nature, with the opportunity to strengthen postgraduate students’ effectiveness in multi-disciplinary working as a key aspect of their academic and professional practice.

The 2020+ COVID-19 pandemic has additionally challenged concepts of leadership and approaches to healthcare world-wide, asking practitioners and leaders to approach policy, strategy, and change in radical ways and to take on leadership at a time of significant pressure and difficult choices. The effects of the COVID pandemic have particularly highlighted structural inequalities & challenges in race, gender and societal opportunity across the UK and internationally, which challenge leaders in all healthcare settings.

As the English NHS moves forward in establishing the new organising model of Integrated Care Systems 2022 +, the course offers practitioners and leaders the opportunity to observe, analyse, investigate, and evaluate the potential and actual impact of this new approach to the long-standing issues and challenges facing health & care services, service users, staff, and wider society.

The specific aims of the course are:

1. To provide an advanced level of healthcare, leadership and commissioning knowledge within the organisational/service delivery context

2. To foster an environment in which occupational experiences are shared and a wider understanding of multidisciplinary healthcare leadership and commissioning approaches is gained.

3. To provide an opportunity to learn from ‘hands on’ practitioners working within healthcare leadership.

4. To provide comprehensive knowledge and understanding of research methods used within healthcare leadership and commissioning.

5. To enhance competence in critically evaluating and communicating research evidence, with practical application to healthcare.

6. For MSc students, to provide an opportunity to plan and execute a rigorous research project in an area of healthcare leadership and commissioning.
Learning Outcomes

The Learning Outcomes for the course are as follows:

**PG Certificate Award**

By the conclusion of the Certificate programme students will be able to demonstrate achievement of the learning outcomes from two mandatory modules and one optional module as follows:

**PG Cert:**

Upon successful completion of the programme, students should be able to:

1. Demonstrate comprehensive understanding of healthcare leadership and commissioning situations, and their clinical and service delivery contexts.
2. Demonstrate systematic understanding of multi-disciplinary and system-wide approaches to the strategic and operational leadership of healthcare improvement.
3. Present knowledge of organisational and service challenges, demonstrating understanding of integrated service design and delivery.
4. Apply specialised professional knowledge and skills to complex and sensitive healthcare leadership and commissioning issues.
5. Analyse and synthesise data from a wide variety of sources to inform evidence-based practice in healthcare leadership and commissioning.

**PG Dip:**

Upon successful completion of the programme, in addition to the above students should be able to:

6. Demonstrate a comprehensive understanding of research methods and critical appraisal for healthcare leadership and commissioning.
7. Identify organisational and policy context and the drivers for change which enable clinical and managerial leaders to contribute more effectively to improving the design, delivery, outcomes and cost effectiveness of services.
8. Communicate effectively with colleagues, key stakeholders, and service users at all levels.
9. Investigate and report on complex and sensitive issues pertinent to healthcare leadership and commissioning using literature searching and empirical research skills.

**MSc:**

Upon successful completion of the programme, in addition to the above students will be able to:

10. Identify a research question, plan, conduct and report/publish a research project in their chosen area of healthcare leadership and commissioning.
Skills

Upon successful completion of the programme, students should be able to:

1. Access and search different databases and sources of literature and data
2. Analyse and synthesise data
3. Use evidence appropriately to inform leadership practice
4. Demonstrate professional writing and presentation skills
5. Demonstrate advanced levels of communication in organisational and clinical settings
6. Develop and submit research proposals
7. Negotiate research ethics and governance procedures
8. Relate leadership knowledge and judgment to complex organisational settings and priorities
9. Communicate and work effectively with colleagues from different disciplines and across different levels of organisations

Personal and professional support through the Course Team

Your Course leader, or their nominee, will be your Personal Tutor for the course duration. Individual Module Leaders will also support your progress through their specific modules.

Academic tutorials are normally set at structured times during the module and teaching programmes to support your studies. Please note that they can also be arranged in response to a specific request for tutorial support from a student. Please contact us via the Programme Administrator.

We recognize the very busy and demanding healthcare environment that most of our postgraduate students come from, with many people still recovering from the demands of the COVID era and experiencing the current challenges of staffing issues. We want our students to experience success, both academically and personally and we aim to be supportive and helpful to your study experience.

Please engage with us as a course team to support you with your progress, and do keep the team informed if you are facing issues. We are very aware of students’ wellbeing needs and are available to be contacted for support and advice through our Healthcare Leadership Programme Administrator.
Course Structure

Postgraduate Certificate (PG Cert) students are required to undertake three modules listed in the table below. The standard period of registration for the PG Cert is 1 year and the maximum is 2 years.

Postgraduate Diploma (PG Dip) students are required to undertake the five mandatory modules and one optional module (see table below for further details). For full-time students, the standard period of registration for the PG Dip is 1 year. The maximum period of registration for the PG Dip for full-time or part-time students is 3 years.

M.Sc. students are required to undertake the five mandatory modules and 1 optional module. In addition, students are required to undertake a MDM164 dissertation. (See table below from further details). For full-time students the standard period of registration for the M.Sc. is 1 year and the maximum 3 years. For part-time students the standard period of registration is 3 years and the maximum 5 years.

Timetable 2022/2023
(Please note module delivery may be subject to potential change in response to national/University guidance)

Part time students are recommended to attend as follows:

Modules MDM110, MDM76 and MDM10 in year one
MDM50 and two other optional modules in year two
Dissertation completed in year three

Full time students are required to complete all modules in one academic year.

Delivery Mode: Whilst we will aim to deliver as much teaching as possible this year face to face and on campus, please note that due to COVID-19 some modules may still be subject to adjustments in response to national or University guidance and may at times be offered remotely via MS Teams or Zoom.

The schedule below may be subject to change in terms of in-person or remote delivery. Please note, however, that our intention will be to keep to existing dates, even when delivery mode has altered, to minimise any disruption to our postgraduate students’ timetables.

Please keep up to date with communications from the University as the year progresses and government advice regarding Covid 19 or other changes.

Please also note that some of the assessment deadlines below may be subject to change, please always consult individual module handbooks once you are registered on a module for the most up to date assessment deadlines.

Module Descriptions

MDM110 Leadership and Change Management in Clinical services

MDM110 Leadership and Change Management in Clinical services is led by Module Leader Dr Gaurish Chawla, BSMS Senior Lecturer, with wider contributors including Ms Breda Flaherty, BSMS Course Leader and Principal Lecturer for Healthcare Leadership and Commissioning, and colleagues from local health systems.

This module uses discussion, collaboration and the critical analysis of healthcare policy, leadership & change management theory, to critique and appraise leadership in clinical and care services.

We are in a period of strong international scrutiny of the history of leadership development, the current application of leadership approaches, and leaders’ ability to apply their leadership values, skills, and knowledge in ways which demonstrate legitimacy. The effects of the COVID pandemic have highlighted structural inequalities in race, gender and societal opportunity across the UK and internationally, which challenge leaders in all settings.

This module aims to provide an overarching understanding of healthcare leadership, particularly the NHS organisational and policy context, leadership approaches, and practical change management models and case examples; the aim is to enable clinicians, professionals, service managers and other leaders to contribute more effectively to improving the design, delivery, outcomes and cost effectiveness of their services.

Clinicians, health and social care professionals, commissioners and service leaders join the module from across the NHS, local government, independent sector & 3rd sector services. The module focuses on how participants can improve health & care services, while paying attention to changing demands from patients and the public, demographic change, technological and clinical innovation, and major challenges to healthcare funding.

On successfully completing this module students should have:

- A systematic and critical understanding of public service reform theory, policy and current context
- A deep critical understanding of the theory and practice of leadership, particularly in the healthcare environment
- A critical awareness of, and ability to think reflectively about, how to initiate, lead and manage changes and improvements in healthcare services and select appropriate approaches to the change process in health & care settings
- The ability to critically appraise different organisational, service delivery and management models from other settings, with an emphasis on use of research.
• An ability to assimilate, synthesise and critically appraise relevant aspects of leadership for service transformation, and present these both orally and in written form to different audiences

MDM76 Quality, Safety and Service Improvement in Clinical Services

**MDM76 Quality, Safety and Service Improvement in Clinical Services** is led by Ms. Caroline Hopper, BSMS Senior Lecturer in Healthcare Leadership and Commissioning

The module will provide students with a rigorous and comprehensive academic understanding of the theory, principles and practice of quality in care and treatment, including safeguarding and patient safety, with an emphasis on health and care services in the UK.

**Module aims:**

• The robust application of sound educational principles to develop the students’ comprehensive understanding of the academic theory, principles and practice of quality in care and treatment, including patient safety, with an emphasis on health and care services in the UK.

• An emphasis on multi professional learning to explore the academic and applied discipline of quality to lead to a greater ability to innovate and influence individual and organisational practice.

• To consolidate learning and develop students’ research and problem-solving abilities; facilitated group-based activities are a key part of the module and are undertaken using case studies and individual investigative tasks which contribute to the development of students’ assignments. Support from the module leader in plenary and tutorials is provided to develop the students’ creative and critical thinking and application

**On successfully completing this module students should have:**

• A deep critical understanding of the theory and practice of leadership in the fields of quality, safety and service improvement

• Critically appraise and reflect upon different methodologies, approaches and models relating to the principles and practice of quality and safety in care and treatment

• Develop a critical evaluation of quality assessment methods and measurement in health and care services
• Critically appraise and demonstrate a deep understanding of the service user/patients’ views and experiences of health and care services and demonstrate how these impact on practice
• An ability to assimilate, synthesise and critically appraise relevant aspects of leadership for service improvement, and present these both orally and in written form to different audiences

MDM10 Research Methods and Critical Appraisal

*MDM10 Research Methods and Critical Appraisal* is led by Ceri Butler, Senior Lecturer, BSMS.

The module aims to provide students with an understanding of how to conduct and appraise research in their specialist areas. It aims to provide students with an understanding of research methods in health and social care and the ability to relate appropriate methods to research questions. Students will be equipped to search and critically review the literature, to develop and justify a research proposal, and to anticipate potential ethical issues in their research proposal.

**The Aim of the module is to:**

• Equip participants with an understanding of quantitative and qualitative research methodologies and methods.
• Provide them with skills of literature searching and critical appraisal.
• Facilitate the development of a soundly structured and clearly justified research proposal in their specialist area.

**On successfully completing this module students should be able to:**

• Demonstrate a critical understanding and evaluation of major research designs and their relative strengths and limitations
• Systematically develop and justify a chosen research approach and methodology to investigate a specific topic within their subject
• Produce a research proposal which demonstrates appreciation of scientific methods appropriate to their specialist area
• Critically appraise a variety of research papers across a range of study designs
• Carry out an appropriate, rigorous review of the literature
• Be aware of ethical and governance issues in research
**MDM50 Principles and Practice of Public Health**

*MDM50 Principles and Practice of Public Health* is led by Dr Marija Pantelic, Senior Lecturer, BSMS.

This module provides an overview of current and developing perspectives of public health and practical applications. It considers global national and local issues, as well as environmental and social factors affecting the public health. It sets the context for approaches to reduce inequalities in health. The impact of health promotion and educational strategies developed to implement public health policies are explored.

**The Aim of the module is to:**

To provide knowledge and understanding of the application of the scientific bases of public health

To foster critical thinking and develop ability to contribute to future public health research, policy and practice

**On successful completion of this module you will be able to:**

- Critically explore the underpinning theories and practical applications that influence public health policy and strategy development
- Develop a critical understanding of tools and measures that assess public health policies and their outcomes
- Critically assess the organisational foundations of public health and relate them to current practice
- Demonstrate an advanced understanding of the complexities of human behaviour, lifestyle and the impact of the environment on health outcomes.
- Critically assess approaches to health promotion and education and consider the strengths and limitations of these strategies
- Demonstrate comprehensive understanding of the significance of health inequalities and critically appraise the impact of health policies on inequalities in health.
Assessment

Module assessment requires an in-depth evaluation of a topic chosen by the student and agreed with the module leader. Assessment modes vary depending on module; below is a more detailed assessment outline for core and optional modules.

A number of essays from previous postgraduate students will be available on the virtual learning platform for students to view as examples.

Core Modules Assessment Type

<table>
<thead>
<tr>
<th>Module Code</th>
<th>Module Title</th>
<th>Assessment Method</th>
</tr>
</thead>
</table>
| MDM110      | Leadership and Change Management in Clinical services             | **Essay - (Summative)**  
3,000-word essay in which students present a healthcare example of change &/or leadership relevant to the module content.  
This will focus on the application of leadership and change management theory to the clinical and care context.  
Students will be expected to discuss the organisation and policy context for service change, and its relevance to their clinical example. Students will be expected to reference an appropriate range of academic texts, journal articles, research, and relevant policy materials |
| MDM76       | Quality, Safety and service improvement in Clinical services      | **Presentation - (Summative)**  
Assessed student presentation.  
Students will be expected to offer an academically robust response to an overarching topic set by the Module Leader.  
Their response will be based in an applied Quality or Safety improvement issue.  
Video presentations will be supported by a full slide set referencing academic texts, journal articles, and relevant policy materials |
<table>
<thead>
<tr>

<th>Module Title</th>
<th>Assignment Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>MDM50</td>
<td>Principles and Practice of Public Health</td>
<td><strong>Essay - (Summative)</strong>&lt;br&gt;A 2,000-word assignment critically analysing an aspect of public health theory and practice related to the student’s practice to be negotiated and agreed with module leader. <strong>Plus</strong>&lt;br&gt;<strong>Ted Talk - (Summative)</strong>&lt;br&gt;Students will prepare a 7 minutes ‘Ted Talk’ style video presentation on a topic considered to be of recent public health importance (e.g. in the last five years). The video will be assessed by two markers. Both components must normally be passed; compensation from one component to the other is not normally allowed.</td>
</tr>
<tr>
<td>MDM10</td>
<td>Research Methods and Critical Appraisal</td>
<td><strong>Essay - (Summative)</strong>&lt;br&gt;3,000-word assignment in which the students:&lt;br&gt;• introduce and define a research issue and research question within their specialty;&lt;br&gt;• conduct a search of the literature and critique relevant papers;&lt;br&gt;• critique the main research methodologies and methods and justify the choice of their methods for their proposed project;&lt;br&gt;• Provide an outline research proposal. <strong>Plus</strong>&lt;br&gt;<strong>Reflective Account – (Formative)</strong>&lt;br&gt;500 word Reflective Account of how the module has impacted upon their work (not assessed)</td>
</tr>
<tr>
<td>MDM164</td>
<td>Dissertation</td>
<td>• <strong>Written Dissertation of 12,000 words (Summative)</strong>&lt;br&gt;• <strong>Poster (Summative)</strong>&lt;br&gt;Both parts must be passed.&lt;br&gt;• <strong>Study Protocol (Formative)</strong></td>
</tr>
</tbody>
</table>
### Optional Modules Assessment Type

<table>
<thead>
<tr>
<th>Module Code</th>
<th>Module Title</th>
<th>Assessment Method</th>
</tr>
</thead>
</table>
| MDM159      | Management of Long Term Conditions in Children | **Essay - (Summative)**  
A 2,500-word essay and poster presentation in which students present a case to illustrate their knowledge and application of multidisciplinary approaches to working with children with long term conditions. |
| MDM122      | Communication, Learning and Teaching in Health & social Care | **Case Studies - (Summative)**  
Plan and deliver a 10-minute learning session, on a topic of student’s own practice. This session is recorded by the student and uploaded onto a web sharing site. This recorded session then forms the basis of a 2,500-word critical analysis and reflection of this communication, teaching and learning session, using relevant, up-to-date evidence. Critical evaluation will include the implications for inter-professional working, issues of patient and carer collaboration. |
| MDM59       | Diabetes Practice in Primary Care | **Essay - (Summative)**  
3,000 word written assignment critically assessing the care of three clinical cases in Diabetes, known to the student, with reference to the latest evidence and literature.  
**Reflective Account – (Formative)**  
500-word reflective account of how the module has impacted upon the student’s practice (not assessed). |
| MDM119      | Understanding Dementia | **Essay - (Summative)**  
3,000 word written assignment. |

### Anonymous Marking

All assessments will be anonymously marked, except where not possible (e.g. Modules assessed through presentations). Please refer to individual module handbooks for further information. To ensure the robustness of this, you must remove your name and student number from anywhere within the document (including the file name.) You should save your work with a title in the following format: module code / year. Example: (MDM110A – 2022-23).

Further information regarding submitting and the process of marking anonymously will be provided during the module and will be made available on My Studies.
Dissertation – MDM164

MDM164 Dissertation Module is led by Ceri Butler Senior Lecturer, BSMS.

Specific Dissertation support to Healthcare Leadership and Commissioning students will be led by Senior Lecturer Caroline Hopper from the Healthcare Leadership and Commissioning Faculty team, in partnership with appropriate external or other supervisors, as agreed with the MSc. Healthcare Leadership and Commissioning Course Lead and the BSMS Dissertation Panel team.

In Order to pass the MDM164 Dissertation students must submit both Module elements:

1) 12,000-word Dissertation
2) Poster

A range of our postgraduate leadership students’ dissertations from 2011 to 2015 are summarised in the digest and offer a sense of the diversity of subjects covered. The dissertations are diverse but what links them all is the backdrop of change the authors are operating under and their concern to contribute to improvement within health and/or social care.

The MDM164 Dissertation is for students studying the MSc award and requires a rigorous piece of personal and independent research consisting of 12,000 words. In order to be able to progress to the dissertation level you must first have your proposal accepted by the Dissertation Panel. Please note, you will be unable to progress to the dissertation if you have accrued more than 60 credits of referral in your taught modules.

It is important to start thinking about your dissertation early in the course:

• **Full time students** should take the ‘Research Methods and Critical Appraisal’ module at the start of their course (semester 1) as this is a necessary foundation for the dissertation. The dissertation proposal should also be submitted by the end of semester 1.

  Part time students should take the ‘Research Methods and Critical Appraisal’ module in year three (semester1) as this is necessary preparation for the dissertation. The dissertation proposal should be submitted by year 3, semester 2.
On successful completion the MDM164 Dissertation Module you will be able to demonstrate:

- clear aims appropriate to a master’s level dissertation and to their professional situation
- high levels of autonomy and responsibility in planning and executing research
- the ability to present and justify a well-structured research question, at the forefront of their specialty
- extensive knowledge of and justification for the appropriate choice of methodology
- comprehensive understanding of, justification for, and application of the methods relevant to the chosen methodology
- evaluation and management of confounding, bias, chance and measures of association (quantitative study)
- issues of truthfulness and verifiability (qualitative study)
- the ability to analyse critically and interpret the results and findings of their study in the context of existing literature
- critical awareness of the limitations of the study and the impact of these on the results
- appropriate knowledge of, and conformity with ethical and governance requirements both in planning and execution of the study
- a depth of knowledge in the field of study appropriate for Masters level
- critical evaluation of the implications of their research for future practice and research
- Awareness of current problems and/or new insights at the forefront of their academic
- Once you have registered for the dissertation module you will be invited to attend a dissertation day, these run four times per year.

You will be able to choose a dissertation that is relevant to your professional interests and practice but will need to focus on issues relating to leadership and commissioning. Your choice of topic must be discussed with the Course Leader and then agreed by the PG BSMS dissertation Panel after a formal presentation of your proposal to the Panel. Once your dissertation has been agreed you will be formally assigned a dissertation supervisor. Other regulatory requirements can be found in the dissertation handbook.

Assessment Regulations

It is important that you become familiar with the regulations for assessments which can be found in the BSMS Student Handbook and the BSMS Postgraduate Taught Examination and Assessment Regulations (PGTEAR) which is found in the BSMS Postgraduate Medicine area of My Studies.
The University does not normally permit computer failure or workload as reasons for extension to hand-in dates. Failure to submit an assignment on the due date will result in a ‘fail’ result for the module. Retrieval of any failure is decided by a Course Exam Board. Work submitted within 2 weeks after the deadline for submission (late Submissions) may be accepted for the consideration of the Area Examination Board. The mark for that component will then be capped at the minimum pass mark of 50%.

**Extensions to submission dates are rarely given and only in extraordinary circumstances where evidence is provided and must be agreed in advance with the Course Leader.**

**Assessment of modules**

Assessments are intended to ensure that you have achieved the learning outcomes for the modules that you have taken. The details of assessment for each module will be available in the individual module handbooks. It is usual for assignments to be relevant both to the module and to your own personal and professional development needs. Please see the table below for details of the grades awarded.

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>&gt;80%</td>
<td>Distinction</td>
</tr>
<tr>
<td>70% - 79%</td>
<td>Distinction</td>
</tr>
<tr>
<td>60% - 69%</td>
<td>Merit</td>
</tr>
<tr>
<td>50% - 59%</td>
<td>Pass</td>
</tr>
<tr>
<td>40% - 49%</td>
<td>Fail/Refer</td>
</tr>
<tr>
<td>&lt;40%</td>
<td>Fail</td>
</tr>
</tbody>
</table>

**Award Criteria**

Postgraduate taught qualifications are awarded as pass, merit or distinction and the criteria for each are listed below.

**Pass criteria**

Postgraduate Certificates: achievement of 60 credits

Postgraduate Diplomas: achievement of 120 credits

Master’s Degrees: achievement of 180 credits

**Merit criteria**

Achievement of credits as listed above for pass criteria with a credit-weighted mean mark from all modules across the award of 60.00-69.99 and a mark of at least 60 in the dissertation element.

**Distinction criteria**

Achievement of credits as listed above for pass criteria with a credit-weighted mean mark from all modules across the award of at least 70 and a mark of at least 70 in the dissertation element.
For further details please refer to the award section in the BSMS Postgraduate Taught Examination and Assessment Regulations (PGTEAR).

**Student Support**

Full-time and International Students receive individual Tutorial support by email, phone, or 1:1 in relation to all assessments: part-time students are supported through the timetable of Tutorial support which is delivered in relation to the timescale for module assessments; full-time students have a structured 1-year timetable of Tutorial support. Students have advance notice of all module and submission dates at the time.

**Learning Support**

**Library and computer services**

BSMS students have access to the University of Sussex Library as well as the University of Brighton Falmer Library, where key textbooks for the course will be held - here is the [BSMS Library Link]. You will be registered to use the Universities’ computing facilities and receive a library card. A username and password will provide you with access to online resources to the University of Brighton – [My Studies](#). To access Sussex Library online resources and certain reading list items follow instructions [here](#).

BSMS librarians offer training on finding and retrieving information, literature searching, online referencing, and can purchase books for your specific research area where possible. For further information please see the library [induction video](#). Please contact us via the email below if you have any issues with accessing online library resources. To make an appointment or for general enquiries, email BSMS Librarians at: bsmslibrary@bsms.ac.uk

See also Online Resources which link to databases and authoritative websites in the fields of medicine, pharmacy, nursing and other subject areas.

To find out how to develop a medical research question and conduct a literature search using BSMS databases see [Searching the Literature video](#).

My Studies is a key electronic source of learning materials from the course, including handouts, timetables and announcements. *It is imperative that you learn how to access and use this vital system of communication.* If you are unable to attend the My Studies training session on the Induction Day in September 2022 (date to be confirmed, to be held remotely) or feel that you would benefit from further instruction, then let your Course Leader know as soon as possible. My Studies will be the main method of communication for any changes to course location or timetable. Please check the site on a regular basis. Examples of assignments that achieved a distinction will be available for you to read on My Studies.

**Study Support**
Assistance with essay writing is available from Royal Literary Fund fellows. These writers offer one to one sessions on how to improve writing skills. Sessions can be booked via the link below: www.sussex.ac.uk/library/guides/rlf
Alternatively, the Royal Literary Fund website offers useful information on essay writing. https://www.rlf.org.uk/resources/writing-essays/

**Academic skills for students at University of Sussex**
For practical help on academic English language skills, reading, research and study techniques Sussex offers workshops, tutorials and events. For more information and to book a place, click link below: http://www.sussex.ac.uk/skillshub/

**Computers, IT support and free software**
Find help and information on connecting to Eduroam university WiFi, recommended software and apps, printing, computer clinics, access to computers and free laptop hire: https://staff.brighton.ac.uk/is/computing/Pages/Home.aspx

**Personal Tutors**
Your Course Leader or their nominee will be your Personal Tutor for the course duration. Individual Module Leaders will also support your progress through their specific modules.

The Course Leader and Course team will be available by arrangement for group (or personal) tutorials with you to support you in successfully completing your assignments. Tutorials are normally held at structured times during the module and teaching programme and can also be arranged in response to a specific request for a tutorial session. Please do make use of the Course team, we aim to be supportive and helpful, both academically and personally.

**Student Group and Peer Support**
In the generic (“Professional”) modules you will be studying alongside students from a diversity of backgrounds. This will provide rich basis for academic discussion, broadening perspectives and the application in a wider arena. Experience of other courses run in Postgraduate Medicine has shown that professional culture barriers are broken down very rapidly with mutual respect for differing topic expertise and approaches to care.

Some course groups opt to share email addresses to have discussions and arrange social events. Of course, this becomes even easier if you use My Studies, which is the main system of electronic communication that this course uses. If you have websites for articles that you would wish to share with the rest of the group then these can be added to this system.

The flexibility of study that is afforded through the University means that not everyone on your professional modules will be taking the same course as you. Some may be on other M-level courses and others may wish to study a single module for continuing professional development only. The modular pre-requisites mean that all students have been selected for the ability to study at graduate level and will have the necessary clinical or scientific background to participate.
Occasionally, some of you may be familiar with some parts of the modules. It is important to bear in mind that the contact time for the module is about 30 hours but the total time you should be spending on developing your topic to M level is about 200 hours per module.

The breadth and depth of your assignment should reflect this total period of study. As with all postgraduate study, the taught sessions are guides to the topic area and should be built upon to achieve the learning outcomes. The emphasis at M level is on independent learning.

**Useful Resources**

- Reading lists will be made available on a modular basis via the Module Handbook
- Students should keep updated on key policy websites:
  - Care Quality Commission [www.cqc.org.uk](http://www.cqc.org.uk)
  - The King’s Fund [www.kingsfund.org.uk](http://www.kingsfund.org.uk)
  - NHS Leadership Academy [http://www.leadershipacademy.nhs.uk](http://www.leadershipacademy.nhs.uk)

**Referencing**

Vancouver is Brighton and Sussex Medical School’s adopted style of referencing. This system is the one most commonly used in other medical schools and medical journals. Vancouver offers simplicity, sympathy to the flow of language and facilitates accurate word counts which do not include citations. Harvard can be used if preferred and you will not be penalised for doing so, providing referencing is accurate, comprehensive and consistent.

To facilitate efficient and accurate referencing, the bibliographic software **Endnote** is provided on University PCs for students and staff. This allows the creation of bibliographies in Microsoft Word, the searching of bibliographic databases and the organisation of references in a searchable database. For
Plagiarism

BSMS takes plagiarism extremely seriously. It is a matter of academic integrity and probity. Plagiarism is the act of taking the work or ideas from another and passing it off as your own. Work that you submit must be free from any form of plagiarism. This includes taking passages directly from a journal, book or the internet, copying work from another student on your course, another student who studied the module previously, or another person studying elsewhere, or ghost writing.

Plagiarism can also come in the form of self-plagiarism if you use your own old essays, reports of publications when writing a new one without referencing them properly. If you are using any of your previous work when writing an assignment, you should reference it with the same level of care that you would any other source.

For those students registered with a professional regulatory body (or seeking to be in the future), such as the General Medical Council or Nursing and Midwifery Council, academic plagiarism can have significant professional consequences with regulatory bodies taking a very keen interest in cases where, for example, a doctor’s probity is called in to question.

Further information about plagiarism and academic misconduct, and related penalties can be found in the BSMS Postgraduate Taught Examination and Assessment Regulations (PGTEAR).

Additional resources on plagiarism, including resources on avoiding plagiarism, can be found at Cite them Right, which offers advice on the latest correct referencing.

https://www.citethemrightonline.com/
https://www.citethemrightonline.com/basics/how-can-i-avoid-plagiarism

To access the video, log in as Brighton University (institutional log-in) in the right corner at the top of the screen:

followed by your BSMS credentials

For a BSMS video on avoiding plagiarism and referencing see below:
https://brighton.cloud.panopto.eu/Panopto/Pages/Viewer.aspx?id=49c401ac-75b9-4b2f-aa85-aec5007e4ade
The University of Brighton is registered with the JISC Plagiarism Detection Service (TurnitinUK). The Service complies with UK Data Protection Law.

BSMS reserves the right to use the TurnitinUK Plagiarism Detection Service and students’ work submitted for assessment purposes will automatically be submitted to the Service for checking.

You will be able to view your Originality report prior to the final deadline for submission.

By clicking submit, a student declares their understanding that:

a) the work is original, of their own construction and not plagiarised from other sources;
b) anonymity has been maintained by using a pseudonym for any patient/client referred to and have not named Trusts or clinical areas, and;
c) failure to comply with above declaration may result in a referral or fail.

A Plagiarism Awareness Pack can be found under Studies - BSMS Postgraduate Medicine - Academic Support on My Studies and all students are advised to read this information and undertake the Plagiarism Quiz.

BSMS Support Resources (22-23)

BSMS students have access to a vast amount of resources at both the University of Brighton and the University of Sussex. Below are support resources at provided by both universities.

Please note that any admissions/ Visa issues are dealt with solely by the University of Brighton. If you have any questions please contact Charlotte Hill (Senior Medical Education Coordinator) or your Course Coordinator.

Key skills for University learning

These short articles introduce some key skills and offer advice and guidance on how to make the most of your learning experience.

- All my own work? Understanding and avoiding plagiarism at university
- Communicating confidently in online classes
- Developing a growth mindset
- Effective group work strategies
- Establishing effective study habits
- Learning independently with confidence
- Making friends and connecting with peers
- Purpose and motivation
- Revising for exams
- **Understanding feedback and how to use it**

**Building study and digital skills**

There are lots of resources to help students to get familiar with university-level study and build their skills.

The University of Brighton curated playlists on LinkedIn learning and written articles on key topics - and you’ll find specially selected learning resources for students to explore in the online library. The University of Sussex provides the Skills Hub for practical help on academic English language skills, reading, research and study techniques Sussex offers workshops, tutorials and events. For more information and to book a place, - [Skills Hub home: Skills Hub: University of Sussex](#)

**BSMS Library support**

To ensure you have access please log into Sussex Direct with your BSMS username and password. If this does not work please apply for a Sussex password, which will enable access to online library resources and more.

**Applying for a Sussex password**

Email using your BSMS email account to itservicedesk@sussex.ac.uk citing your BSMS username and stating that you require a password to access online resources.

The IT team will email back with instructions on how to get the password.

When you have the password, you can easily change it to your existing BSMS password.

For further information and contact details of the IT service at the University of Sussex please see Sussex Direct

**BSMS Library**

On your Home screen of MyStudies you will have a list of BSMS links, one of these is the BSMS Library. The Library link contains information, resources, training, e tutorials, and guidance on referencing and endnote.

The Library service has also created the following induction and plagiarism presentations
Writing Advisory Service

The Writing Advisory Service provides personalised feedback on your written work throughout the year. You’ll be able to get comments from an experienced academic tutor on the organisation and clarity of your ideas, academic style and frequent language mistakes.

The idea is that you learn from your mistakes and through implementing the suggestions that the tutors give you.

How does it work?
Choose an assignment or piece of written work that you want advice about. It can be up to 5,000 words – so could be a section of your dissertation or a chapter of a PhD, or just a part of a piece of written work.

Email WritingAdvisoryService@brighton.ac.uk and ask to be enrolled. Please provide your student ID number, university username, your school and course details.

We'll send you instructions on how to access and use the Writing Advisory Service. Allow five to ten working days for us to review your work – the service can be very busy (working days are Monday-Friday, not including weekends or holidays).

Additional information: Writing Advisory Service website

WritingAdvisoryService@brighton.ac.uk
Royal Literary Fund Fellows

As part of the Royal Literary Fund’s Fellowship Scheme, Sussex hosts three professional writers who offer one-to-one tutorials during term-time with any member of the university who wishes to improve their writing skills. Our 2021/22 RLF Fellows are Tom Connolly, Nikki Sheehan and Tessa Boase.

The RLF Fellows can help with any aspect of the writing process, from planning to drafting, constructing an argument and editing. They are able to comment on the writing style of work in progress, allowing students to improve their work before submission.

Additional information University of Sussex - The Royal Literary Fund (rlf.org.uk)

Contact details;
- Mondays: tom.connolly@rlfeducation.org.uk
- Tuesdays and Wednesdays: nikki.sheehan@rlfeducation.org.uk
- Thursday and Fridays: tessa.boase@rlfeducation.org.uk

Please note: If English is not your first language, specialist one-to-one tutorials are available from English Language for Academic Study (ELAS) detailed below.

English Language for Academic Study

The English Language for Academic study service is designed to help students improve their academic English and their understanding of British academic culture.

they offer free workshops, 'time to write' sessions and one-to-one tutorials throughout the academic year to students whose first language is not English. These are available to international/overseas students studying for a degree at the University of Sussex or BSMS.

Support for international students

Visas and immigration
The University of Brighton has International Student Advisers who can help you with advice on:
- Making a visa application to start a course at the university, and extending your visa to repeat a year or go on to further study
- Implications of intermitting, withdrawing and intercalating from a course, as well as taking resits or resubmitting assignments
- Visa routes for working in the UK after your studies
- Visa restrictions and conditions e.g. working hours, Police registration
- Schengen visas to travel within the EU.
- We also provide advice to EU and EEA nationals on:
  - Making an application for settled or pre-settled status in the UK
  - Rights of EU and EEA nationals once the UK has left the EU.

Additional information: Visas and immigration (brighton.ac.uk)

Contact details;
visas@brighton.ac.uk

Support and guidance living in the UK

The University of Brighton has International Student Support Officers who can help you with:
- Practical advice about living in the UK eg local shopping and transport, opening a UK bank account, accessing healthcare
- Information about social activities on and off campus
- Support for homesickness and culture shock
- Advice on financial hardship
- Support through times of crisis.

**Additional information:** [Support for international students (brighton.ac.uk)](brighton.ac.uk)

**Contact details:**
orientation@brighton.ac.uk, call us on 01273 642888

**Wellbeing and Student Support**

BSMS has a student support team made up of Student Welfare Advisers (rather than SSGTs) and a Student Support Coordinator.

The team is available Monday to Friday 9am–5pm. Please contact the team via to book an appointment or if you need support with anything that is impacting your studies.

**Contact details:**
studentsupport@bsms.ac.uk

- Residential Wellbeing
- Health
- Faith and spirituality
- Self-help resources
- Finances
- Disability and dyslexia
- LGBTQ+ support
- Pregnancy and parenthood
- Wellbeing services
- Disclose harassment, discrimination, violence or abuse
Specialist support

If you feel that an impairment, illness or specific learning difficulty is affecting your studies and your wellbeing, please speak to a support officer as soon as possible. You might be surprised by just how much we can do to help you.

Our disability and dyslexia team can help you if you have:

- Dyslexia
- another specific learning difficulty, such as dyspraxia, dyscalculia, dysgraphia or attention deficit (hyperactivity) disorder
- a long-term mental health issue that is affecting your ability to study, such as depression, an anxiety disorder (panic disorder, OCD, PTSD, bi-polar disorder), schizophrenia and psychosis, drug and alcohol problems or an eating disorder
- a long-term illness such as diabetes, epilepsy, cystic fibrosis, cancer, HIV, chronic fatigue syndrome, irritable bowel syndrome or multiple sclerosis
- an autistic spectrum disorder
- a physical, mobility, visual or hearing impairment.

Examinations and assessments

We can make special arrangements to help you take exams and assessments, including: giving you extra time to sit the exam; a separate room; exam papers in different formats; use of a computer; and a scribe or reader.

We believe that changes to exam and assessment methods should be allowed if you can achieve the required learning objectives but are prevented from demonstrating this under normal conditions by your disability or learning difficulty.

So that the disability and dyslexia team can make examination and assessment recommendations, please contact via email.

disability@brighton.ac.uk
Teaching Staff

Academic staff from Brighton and Sussex Medical School are involved in the provision of teaching in a modular format at Masters (M) level. Specialist teaching is provided by external contributors, including clinical, managerial and other staff from the NHS and wider services. The extensive contribution of expert practitioners to the teaching of the modules is a distinctive feature of courses at BSMS.

Information for International Students

Monitoring Attendance of International Students (Points Based Immigration System)

Why does my attendance at university need to be monitored?

In line with the United Kingdom Home Office (UKBA) surveillance on International Students, the university is now responsible for sponsoring non-EU students for visa purposes by issuing you with a Certificate of Acceptance of Studies (CAS). We have additional responsibility of monitoring your contact with the university. If you are a European student, these restrictions don’t apply to you.

Students are expected to comply with university policy and cooperate with staff in order meet the requirements, including attending meetings on request or provide evidence as required. Any student studying at the university with a visa issued under Tier 4 of the Points Based Immigration System should note that engagement in their studies will be monitored and logged. It is the student’s responsibility to:
1. Confirm contact details at enrolment and confirm or update the university with any changes during termly re-enrolment (confirmation of personal details). Student can update the university with any changes to contact details at any time via My Studies;

2. Comply with the terms set out in the Student Contract by engaging appropriately with all learning activities, and with the additional requirements set out in this policy;

How will the Department of Medical Education monitor my attendance?

There will be a monthly review period each year from the start of the course until the completion of the course. Within each review period, a minimum of one formal engagement point (where there are expected engagements) will be monitored and logged.

Online engagement points
a. Confirmation of personal details online (re-enrolment)
b. Submission of formative or summative coursework via an online submission system (for example My Studies assignment tools, Turnitin, ePortfolio, MapleTA)
c. Online elective module selection

Other engagement points
d. In-person enrolment
e. In-person submission of coursework
f. Examinations, test or other form of assessment
g. Attendance at tutorial, seminar, clinic or lab
h. Record of meeting with supervisor, personal tutor, Student Support Guidance Tutor (SSGT) or other relevant member of teaching or administrative staff
i. Record of research training or research panel meeting
j. Oral examination or viva
k. Placement engagement
l. Application for coursework extensions
m. Submission of mitigating circumstances
n. Authorisation of absence request
o. Participation in an organised field trip

Students must seek authorisation from the Course Leader, appropriate School Office staff or Student Support Guidance Tutor for any unforeseen absence due to illness or other circumstances.

Any students with missed engagements or low attendance risk being withdrawn from the university. In the case of students with Tier 4 visas, withdrawal from study would result in their visa being curtailed (cancelled) and the student would be required to leave the UK.

More information can be found in the BSMS International Students handbook.
Preparation in language and study skills

Courses are available either before the start of the MSc. Programme or during the course of the year:

Summer Pre-sessional

This consists of up to three, 4 week stages depending on the current level of English and the required improvement in IELTS score.

Stage 1: develop your English                        Intermediate level
Stage 2: extend your English                          Higher Intermediate level
Stage 3: consolidate your English                     Lower Advanced Level Full

Further details on the Summer Pre-sessional can be found here.

Sessional Courses – International Academic Study Kit - iASK

iASK includes lectures, classes, tutorials, online essay feedback and peer proof reading for students whose first language is not English. iASK services are free and run throughout the year.

For more information see www.brighton.ac.uk/iask

Student Support Services

Opportunities and support to help you get the most out of your time at university.

Student Operations & Support is a central department that provide a range of services to support you through university and to help you get the most from the student experience.

Our experienced and supportive staff offer advice on a range of issues, including:

- Advice about money worries and how to live on a budget.
- Support in finding jobs and volunteering opportunities.
- Help accessing academic support if you have a disability, learning difficulty or long-term medical condition.
- One to one support for students with worries or concerns in a safe, confidential space.
Here for you, whatever the issue

Below is an outline of some of the ways in which we can help you during your time here.

Career development

Build your employability skills and boost your graduate potential, with careers guidance, enterprise skills, and employment and volunteering opportunities.

Faith & Spirituality

There’s more to the Faith & Spirituality, than you think with social events, retreats, worship, discussion, support and listening.

Counselling

Whatever the reason, if you are finding academic life is causing you concern, or for personal reasons you need someone to talk things over with, you don’t need to feel that you are all alone with your worries. You can access a counsellor in a safe and confidential space for an assessment appointment and they can then offer guidance and support or referral to appropriate agencies.

Disability and dyslexia support

If you have a disability, specific learning difficulty or long term-health condition and choose to disclose it in confidence to the Disability and Dyslexia team, you will discover the wide range of academic and personal support available.

Please note that if you have declared that you have a disability you should have received an email to set up a meeting with Disability Support Services here at the University of Brighton. If you have not received an email please contact the Student Services team at Falmer on 01273 643584, or email disability@brighton.ac.uk who can help arrange support.

Health and wellbeing

Looking after yourself whilst at university helps you to get the most of your experience. Our links to local surgeries give you access to a doctor, while our health and wellbeing workshops and information help you to keep everything in balance – so look after your mind and body whilst you are here.

Student Advice Service

When it comes to your finances at university it pays to be money wise; so, for expert advice on financial issues, including fees, grants, bursaries, loans, and money management, contact the Student Advice Service. They can also help if you are an international student needing immigration advice, or support if you’re experiencing culture shock and home sickness.
Get in touch

You can find further information about our services and answers to your student life queries at http://www.brighton.ac.uk/current-students/index.aspx, ask your Student Support and Guidance Tutor (www.brighton.ac.uk/ssgt).

We can help answer your questions in confidence via email, at studentservices@brighton.ac.uk or you can access our services at each campus by visiting our student centres, or call us to find out more or book an appointment.

**Eastbourne** - Trevin Towers, Gaudick Road Telephone: 01273 643845

**Falmer** – Student Centre, E Wing, Checkland Building Telephone: 01273 643584

**Grand Parade** – Student Centre, Ground Floor, main building Telephone: 01273 643187

**Moulsecoomb** - Ground Floor, Cockcroft Building Telephone: 01273 642895/2619

And Finally...

We look forward to welcoming you to the course and hope you have an enjoyable, successful and productive time at the University. Do not hesitate to contact your Course Leader, Breda Flaherty, or the Programme Administrator, Ian Angell, with any queries.

We look forward to working with you during your time with the University.
