

INTERESTED IN JOINING OUR RESEARCH ON BRAIN FOG IN MENOPAUSE?

 brighton and sussex
medical school

Do you experience brain fog in perimenopause or menopause? Would you like to join our research at Brighton and Sussex Medical School?

We are looking at how changes in physiology during menopause affect cognition to better understand what underlies brain fog.

Any adult who is in perimenopause or has undergone menopause, between 35 and 60 years, is invited to participate. Must live in the Brighton/Sussex area. 80 slots available. Participants will be paid a small fee, plus travel costs up to £20.

To take part please email brainfogstudy@bsms.ac.uk
